

February 2022

Dear Member,

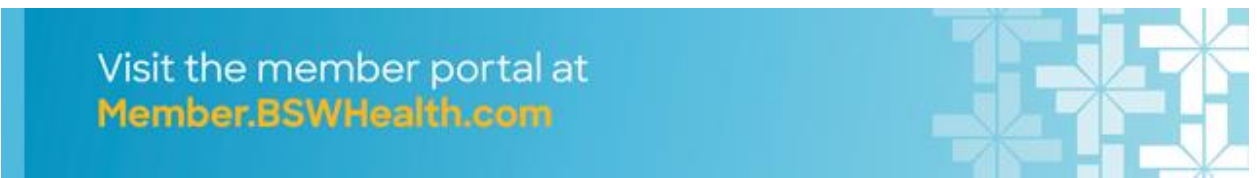

Our records show you and/or your covered dependent(s) are currently enrolled in the out-of-area (OOA) coverage for the plan year 2022.

The OOA provides a modified Tier 2 benefit coverage for employees and covered dependents who live 40 or more miles from the nearest Tier 1 acute care hospital and visit Tier 2 providers for inpatient and outpatient care. The modified benefit is 80% vs. 50% after Tier 2 deductible.

If you and/or your covered dependent(s) no longer live 40 or more miles from a Tier 1 acute care hospital, please contact our Customer Advocacy at 1-844-843-3229 to deactivate this coverage.

Stay safe and well,

Baylor Scott and White Health Plan
