

Baylor Scott & White Health Plan Specialty Pharmacy Drug List

The BSWHP Specialty Pharmacy Program offers you the choice of two specialty care pharmacies to help manage and access your specialty drugs: the Baylor Scott & White Specialty Care Team pharmacy or Optum® Specialty Pharmacy. If you are taking one of the specialty medications listed in this document and obtain it through a pharmacy, you must contact either Baylor Scott & White Specialty Care Team pharmacy or Optum Specialty Pharmacy to fill your prescription.

Characteristics of specialty medications

Specialty medications are often drugs you take by mouth or inject. For a medication to be filled through a specialty pharmacy, it must be at least one of the following:

High-priced

- Can cost more than \$1,000/30 day supply

Complex

- Drug imitates compounds found in the body
- Part of a specialty drug class

High-touch

- Special shipping or handling like refrigeration
- Needs a doctor or pharmacist to measure how well it works for you
- Special steps to follow when taking medications

Baylor Scott & White Specialty Care Team Pharmacy:

Phone: To start using the Baylor Scott & White Specialty Care Team service, call **1-844-288-3179**.

Optum Specialty Pharmacy:

Online: Go to BSWHealthPlan.com/Pharmacy to register or log in. Select 'Specialty Pharmacy'. Fill out the New Patient Form, and we will take it from there.

Phone: Call **1-833-502-3339** and follow the prompts for 'specialty pharmacy' or ask your prescriber to send an electronic prescription to Optum Specialty Pharmacy.

See Drug List, beginning on the following page.

This specialty pharmacy drug list may not be a complete list of all specialty medications; this list can change at any time without notice. This list only includes brand name drugs. Non-specialty alternatives may be a recommended first-line therapy to treat your condition. Please consult your doctor.
